For Fine Mums

WHY NOT AN EARLY
CHRYSANTHEMUM
SHOW?

Mary Cullen's Cottage (The Journal, Portland) held an Early Mum Show Oct. 1st to 3rd, 1947. This show proved to be such a success that the thought occurred to us that Garden Clubs of the Pacific Coast would do well to stage such Early Mum Shows in their localities. The Early Hardy Mums and the Early English Mums were the objects of admiration at Mary Cullen's Cottage Show. They also would make excellent subjects at any Early Mum Show your Garden Club would arrange.

The Early Hardy Mums bloom in Sept. and Oct. and come in all the colors of the rainbow. The Early English Mums

bloom in August and Sept. and their flowers are as big and beautiful as those of the Large Type Late Mums.

To start the ball rolling and to encourage Garden Clubs to make the Early Mum Show one of their projects, we make the following offer to Garden Clubs:

RAINBOW COLLECTIONS A,B,AND C: Each of the three collections consists of 12 Early Hardy Mums, colors white to red, 12 shades, each labeled. Each collection has different varieties. Each collection costs \$2.00 postpaid, all three collections are \$5.00 postpaid. If you order all three collections you receive 36 different varieties. We ship either divisions of clumps or rooted cuttings. Please order early for they have to be planted not later than May first for early flowers. Orders must be addressed to your Garden Club to take advantage of this special low offer.

SPECIAL ANNIVERSARY OFFER: To celebrate our anniversary we decided to give our customers special low prices in our Rainbow Collections. We will send you either of them (A,B, or C.) for \$2.25 postpaid, or all three for \$6.00. Each Collection consists of 12 Early Hardy Mums in 12 varieties and shades. If you order all 3 Collections you have 36 different Mums which would bring a riot of color into your garden in September and October, just when you need it most. Order them NOW. Be sure to get your Mums early!

HARDY MUMS MAKE GOOD CUTFLOWERS.

EARLY ENGLISH MUMS. Here we list a number of excellent Early English Mums

which bloom in August and September. The flowers are similar to the Large November-flowering Mums. Try a few in your garden this year: (rooted cuttings only)

Camellias

A CAMELLIA HEDGE. How would you like a hedge of camellias? A camellia hedge is easy to take care of. It has small, green, glossy leaves, and it blooms in winter and early spring, when other blossoms are scarce. A camellia hedge would be especially nice to divide the back yard from the front yard.

Our hedge camellias are in four inch pots and are about 16 inches high. If you plant them three feet apart you will have a very nice hedge in a few years. They sell for \$2.00 each.

A hedge of mixed camellias looks very good, but if you prefer all of one variety write us your wishes and we will forward the desired variety.
